ABOUT ME

I am a Web Developer with experience and in continuous training. I am looking for a job opportunity where I can excel and contribute with my skills. I am also a Veterinary Doctor, having worked as a clinician, lab technician, teacher, and researcher. My goal is to work in a company that values my knowledge and career, allowing me to give my best.

EXPERIENCE

Web Developer

Freelance (August 2023 - Present)

- Design and development of responsive websites using React.js with frameworks such as Bootstrap, Material-UI, and Tailwind CSS, working closely with clients to understand their needs and provide customized solutions.
- Development of efficient and scalable RESTful APIs with Node.js.
- Integration with relational databases (SQL with Sequelize) and non-relational databases (MongoDB with Mongoose).
- Communication and coordination with clients and development teams to set and meet delivery deadlines.
- Version control with Git.

100devs (May 2023 - August 2023)

- Development and creation of custom websites for US clients.
- Collaboration in multidisciplinary teams to make decisions and ensure project efficiency.
- Web development with HTML, CSS, JavaScript, React.js, implementing interactive and responsive user interfaces.
- Development and maintenance of the backend and database integration with MongoDB.

Veterinarian at La Granja Veterinary Hospital (September 2020 - Present)

- Supervision of the hospitalization area, leading a team of veterinary assistants and designing diagnostic and treatment plans.
- Interaction with clients to provide information and answer questions about veterinary services and procedures.

Veterinary Lab Technician at Microdiag Laboratory (February 2021 - February 2023)

- Hematological tests, blood biochemistry, and urinalysis.
- Processing, organizing, and managing samples from start to finish.
- Data entry and subsequent control, ensuring accuracy and reliability.
- Inventory and equipment maintenance, ensuring efficient laboratory operations.

University Lecturer and Researcher at Faculty of Veterinary Sciences, National University of La Plata (February 2017 - March 2020)

- Teaching Pathology courses, supervising students, and contributing to interdisciplinary teaching and research groups.
- Participation in research projects focused on pulmonary diseases in cattle.
- Performing statistical analysis of research results and contributing to scientific publications by presenting data.
- Organizing educational events and workshops within the veterinary community.

EDUCATION

Veterinary Doctor (2020, National University of La Plata)

Full Stack Developer (2023, Coderhouse)

- Web development, JavaScript, React.js
- Backend programming with Node.js
